MILWAUKEE HEALTH CARE PARTNERSHIP

March, 2021

Since 2011, the Milwaukee Health Care Partnership's *Safety-Net Clinic Referral Directory* has served as a comprehensive inventory of the free and community clinics, community health centers and other safety net providers that serve low-income, uninsured and vulnerable populations in Milwaukee County.

It contains essential information about 60 primary care, dental, mental health and specialty clinics – providing a variety of information including hours, payment practices, languages spoken, and types of clinical services and screenings offered.

The directory is a resource for hundreds of providers, care managers, health and human service professionals and IMPACT 2-1-1 community resource specialists, in their support to individuals seeking free and low-cost health care services. It is available for download at: the Milwaukee Health Care Partnership mkehcp.org, IMPACT impactinc.org, and the United Way of Greater Milwaukee & Waukesha County unitedwaygmmc.org.

We recognize that the scope of services available through these clinics may change from time to time and encourage users to confirm information directly with community clinic partners prior to making a referral.

We also recognize the increasing need for information about behavioral health resources in our community as individuals and families struggle with isolation, job loss and economic uncertainty caused by the pandemic. We hope that you will stay up-to-date with the most current array of behavioral health and other community resources available through impactinc.org or by calling 2-1-1.

Joy Tapper, Executive Director
Milwaukee Health Care Partnership

John Hyatt, President & CEO
IMPACT

Note on Information in this Directory

Information in this Referral Directory was provided by staff and volunteers at the clinics included.

Clinics were given multiple opportunities to verify that information was entered correctly. If a clinic did not verify the information in time for print, it is noted at the bottom of the page.

Deliberate efforts were made to reduce errors or omissions, but if data errors are found in this directory, please report them to resourcechange@impactinc.org

Medical Clinic Designation:

Free or Charitable Clinic indicates a clinic that provides care free of charge or on a sliding fee scale.

FQHC indicates a clinic that is a Federally Qualified Health Center.

A **Primary Care Medical Home** also known as a 'health home':

- is open > 30 hours / week
- maintains a health record for each patient
- maintains after-hours call coverage when the clinic is closed
- provides access to specialty medical care at the clinic or through formal referral relationships
- provides and manages medications

A **Dental Home**:

- is open > 30 hours / week
- maintains a dental record for each patient
- provides access to specialty dental care through formal referral relationships

The **Specialty Access for the Uninsured Program (SAUP)** provides specialty medical care for low-income and uninsured adults who are "established patients" at a participating clinic.

Participating SAUP clinics provide primary care, medication access, public benefits counseling, insurance enrollment assistance, and navigation and social supports. Each clinic is paired with a health system that provides a network of specialists for diagnostics, outpatient services and in-patient care. All usual and customary specialty consultation, testing and treatments are covered under SAUP, with no out-of-pocket cost to patients at or below 200% FPL and do not qualify for public insurance benefits.

For the most up-to date information on any clinic in this guide, please visit impactinc.org or dial 2-1-1.

Table of Contents

Due to the COVID-19 pandemic, many clinics may experience unexpected changes to their hours of operation or services provided. Please call in advance when making a referral or seeking an appointment.

General Description of Services

CORE EI Centro has two locations – on the near Southside of Milwaukee and at Sojourner Family Peace Center. Core is a non-profit, bilingual, natural healing center that embraces all people and has a passion for serving those of low income. The agency's purpose is to make healing services accessible; including massage, acupuncture and energy work, to build community, and to inspire to wholeness in all who desire the healing capacities of natural therapies. As a non-profit, CORE/EI Centro is dedicated to accomplishing this by offering natural healing practices and holistic exercises that integrate body, mind and spirit and by creating an environment that nurtures self-healing and community well-being.

Information is accurate as of December 2020. For the most up-to-date information, please visit the IMPACT 2-1-1 Online Resource Directory at impactinc.org or dial 2-1-1.

Payment Practices: Everyone is charged a fee for service; the clinic will provide patients with a form to submit to their insurance carrier for reimbursement

Required Documents: Call to inquire

General Description of Services

Preventive dental care is available to MATC students, their children and the community at cost. Patients are expected to have a different dental home; the clinic does not diagnose. Services include a range of preventive care, performed by Dental Hygiene program students under the guidance of Dental Hygiene faculty members. Due to the instructional nature of the services provided, please plan adequate time for completion of each of the requested services. The clinic provides dental hygiene services including: dental prophylaxis, X-rays, sealants, and fluoride treatments. X-rays will not be released to patients until their dental hygiene treatment is complete. The clinic is closed during winter, spring and summer breaks.

Information is accurate as of December 2020. For the most up-to-date information, please visit the IMPACT 2-1-1 Online Resource Directory at impactinc.org or dial 2-1-1.
