

## Build a thriving community for all who call Waukesha County home.

Making Our Individual Work & Voices Shared

What happens when non-profits, government, businesses, healthcare, philanthropists, and the community work together? Let's find out! For years we've all been addressing Waukesha County issues like homelessness and transportation on our own - with split resources, limited power and slow momentum. Can you imagine the power of working together?

That's what Thriving Waukesha County Alliance is all about - building a thriving community using the power of our collective impact. By identifying the common challenges and tackling them as a team, we can ensure that Waukesha County continues to be an amazing place to work, play and live, now and for years to come!

# When It Comes To Community Challenges, It's Not About Blame; It's About Solutions!

We gathered Waukesha County's non-profit leaders, government, businesses, healthcare partners, and funders together to identify the most pressing community challenges. What we realized is that we can't tackle complex community issues on our own, but we can find more strategic ways to work together more effectively and efficiently. Join us so we can point our energy in the same direction to build a healthy, thriving Waukesha County!

## Our Goals:

### We All Have a Role in Building a Thriving Community:

- **Non-Profits:** Be part of "something bigger" - form relationships, collaborate, and get creative with solutions
- **Government/Law Enforcement:** Be the front line of defense to help cut through all the red tape and rules
- **Healthcare:** Be relentless with patient health, identifying those at risk and pointing them in the direction of our resources
- **Donors/Funders:** Help us connect with individuals and other non-profits who need our help and collaborative efforts
- **Businesses:** Think bigger picture about how you can create change through your business knowledge and savvy
- **Community/General Public:** Open your eyes to the challenges of our community, get involved, and give back

**Increase the Capacity & Effectiveness of Waukesha County Human Services Non-Profit Providers**

**Foster Innovation, Collaboration & the Integration of Services to Support Identified Initiatives**

**Mobilize Community Resources to Support Thriving's Mission & Goals**

## Join Us in Our Collective Efforts to Make Waukesha County a Thriving Community!
