WHO YOU’RE HELPING

Due to the recent merger of United Way of Greater Milwaukee & Waukesha County, data for 2014-15 was collected separately. Combined outcomes will be available in late 2016.
Education is the cornerstone of individual and community success. Strong, productive communities are dependent upon a skilled workforce that can compete in a global economy. It is critical to reach children early—even before they start school. Once a young person falls behind it can be very difficult to catch up.

Parents who have support from early on can build great futures for their children. United Way is working with schools, parents, and organizations to ensure that every child has a chance for success in school, work, and life by investing in programs that produce results.

United Way of Greater Milwaukee & Waukesha County focuses on supportive communities, effective schools, and strong families. Tackling the education challenge requires reframing education on a cradle-to-career continuum.

In 2016-17, United Way will invest in 48 Education programs, listed to the right under the issue areas they address.

**FACT**

Success in life begins with a strong foundation in health, social-emotional skills, and cognitive development. Unfortunately, by eight years old, many children—especially those living in families that are struggling financially—have not met the developmental milestones that are essential for future success in school and life.

**SUPPORT FOR CHILDREN & FAMILIES**

Supports success within the family unit and improved cognitive, social, and/or physical skills among children.

**FACT**

38% of children are born to unmarried mothers. There are five main risk areas to these families:

- the inability to bounce back from difficulties
- social disconnection
- limited opportunities to learn child development and parenting skills
- not enough support when in need
- not knowing how to develop their child's social and emotional competence

Families are in need of prevention based programs to increase their opportunities for success in these areas.

**YOUTH DEVELOPMENT**

Focuses on increasing the number of children who read proficiently by third grade, are on track to advance to the next grade level, develop resistance skills, increase school engagement, have goals and aspirations, graduate high school on time, and are prepared for success in college, work, and life.

**FACT**

Low academic achievement correlates to low graduation rates and predicts other negative outcomes e.g. teen pregnancy, crime, and unemployment. Third-graders who lack proficiency in reading are four times more likely to become high school dropouts. Only 62% of Milwaukee Public School students graduate in four years, while 1,883 dropped out entirely.

**Of the parents/caregivers who participated in United Way-funded support for children and families programs in 2014-15:**

- increased their positive interactions with family and friends

**Of the children ages 6-8 who participated in United Way-funded youth development programs in 2014-15:**

- improved on believing that it matters to do well in school

- Wisconsin Community Services, Inc - Agree to Succeed Attendance Program

EMERGING READERS

Launched by the United Way Emerging Leaders affinity group, Emerging Readers provides the opportunity to make a positive impact in the life of a local child by sharing the joy of reading. Participants are matched with a family or a child at a United Way partner agency and donate age-appropriate reading materials for their child or family four times a year.

This year, 242 local children were matched with 150 United Way donors. Children receiving books were between the ages of 2-13 and participated in youth programming at the following program partner agencies: Big Brothers Big Sisters of Greater Milwaukee, Boys and Girls Club of Greater Milwaukee, COA Youth & Family Centers, Parents Place, and the United Community Center.

MY VERY OWN LIBRARY

In 2015-16 My Very Own Library, a literacy initiative dedicated to putting books into the hands of children in need, distributed 34,200 books to students in 10 MPS schools. Participating students in the chosen schools had the opportunity to select 10 new children’s books over the course of three book fairs to create their own home library.

The schools selected were: Kluge; Auer Avenue School; Brown Street Academy; Hopkins Lloyd Community School; Jackson Early Childhood and Elementary School; Kagel School; Lancaster School; James Whitcomb Riley School; Townsend Street School; and Clement J. Zablocki School.

SUMMER READING PARTNERSHIP

Over the summer, children can lose two to three months of reading skills learned during the school year – often called summer slide. The summer reading partnership wants every child to have fun reading age-appropriate books, alone or with their parents and will distribute more than 70,000 new, free books to local children this summer.

READERS UNITED

In the State of Wisconsin 67% of youth do not read at a proficient level. Readers United is a year-round initiative to promote literacy. This initiative encompasses:

**MILWAUKEE COMMUNITY SCHOOLS PARTNERSHIP**

Milwaukee Community Schools Partnership is a collective strategy to transform schools into a place where students, families, staff, and the surrounding community can work together to ensure every student is successful. Our strategy places the focus on the whole child by providing academic supports, social & emotional learning, health & wellness, family & community engagement, and a safe and supportive climate.

In partnership with Milwaukee Public Schools, United Way is currently working with six schools:

- Auer Avenue Community School
- Bradley Tech High School
- Browning Elementary
- Hopkins Lloyd Community School
- James Madison Academic Campus
- Lincoln Avenue Elementary

**Where We Help**

**MILWAUKEE SUCCEEDS**

As a founding partner in Milwaukee Succeeds – a community-wide initiative to ensure there is a strong education pipeline from cradle to career for all children – United Way is leading three groups to implement strategies to increase the:

- Number of children enrolled in high quality early childcare programs in our community from 1,500 children in 2013 to 3,000 by 2020.
- Level of parental awareness of their young children’s needs for healthy development by ensuring access to developmental screenings and the support of parents as the experts of their children.
- Number of children immunized to ensure the overall health of Milwaukee children by educating parents and expectant parents about the importance of preventive health care on children’s long-term success.

**Community Coalitions, Collaborations & Partnerships:**

- Children and Family Support Advisory Committee - Waukesha
- First Stage Theatre in Education Committee
- Greater Milwaukee Committee – Education Committee
- Immunize Milwaukee
- School Readiness Philanthropy Group

Each Community School may use different strategies and activities to improve its school and community, but each share these guiding principles:

- **Shared Leadership** that engages multiple voices in decision-making and implementation. A full-time Community School Coordinator that supports continuous communication between all stakeholders in the development of a strategic plan.

- **A focus on Equity** to ensure all activities are fair and just so that all can participate, prosper, and reach their full potential.

- **Cultural Relevance** that builds on the assets of the entire community and responds to the self-identities of students, families, school staff, and community members.
OUR WORK IN INCOME

Our community will only prosper and grow if all families are financially stable. Fewer financial stresses lead to healthier lives, improved work performance, and better education outcomes. United Way invests in programs that help adults improve their education level and create a more financially secure future for themselves and their families. United Way’s work in Income is focused on ensuring all families and individuals achieve independence, dignity of employment, and financial stability.

In 2016-17, United Way will invest in 47 Income programs, listed to the right under the issue areas they address.

Visit UnitedWayGMWC.org/Income for more outcomes.

ADULT LEARNING

The inability for many of Waukesha County’s citizens to meet their basic needs affects the entire community. 16.4% of the population is considered low income or working poor. United Way is addressing this issue by focusing on teaching families and individuals who are struggling to meet their basic needs the skills needed to increase income, build savings, and gain assets through the following program:

- La Casa de Esperanza, Inc - Financial Stability Program

United Way’s Individual Development Account Program (IDA) encourages and rewards savings towards a home or post-secondary education by matching participants’ deposits. Through a federal grant obtained by the Boys & Girls Clubs of Greater Milwaukee and funds raised by United Way, savings are matched $4 to $1 for first-time low-income home buyers, and $6 to $1 for post-secondary education. Participants must also take part in financial counseling classes in order to enroll in the program.

Continuum Of Care Coordinated Entry

United Way is the lead agency for the Continuum of Care Coordinated Entry Workgroup and surrounding efforts. The workgroup is responsible for designing a new coordinated entry (CE) system to improve effective access to homelessness prevention, shelter diversion, community case management, emergency shelter, transitional housing, and other services to support housing stability.
Technical Assistance and Agency Support

United Way monitors the financial health of its programs, helps them set performance goals, measure their results and make ongoing improvements. Additionally, we provide specialized support in the areas of IT and governance:

IT United

IT United members are information technology professionals who provide skill-based volunteering and services to United Way Program Partner Agencies. Services are provided by IT companies and executed by their staff.

**IT support and services include:**

- One-time and ongoing IT projects for agency partners
- Career fairs and educational opportunities for students

Project LEAD

In our four-county region, too many people are left out of our public conversations. United Way of Greater Milwaukee & Waukesha County is changing this with Project LEAD—Leadership Effectiveness And Diversity.

This in-depth six-week training program prepares community members for leadership roles on nonprofit boards and committees, with an emphasis on recruiting participants from underrepresented board populations (women, racially and ethnically diverse, young professionals).

Priority for post-training placement on boards is given to United Way partner agencies.

Black Male Achievement

United Way has partnered with and sits on the Black Male Achievement Advisory Council (BMAAC) with the City of Milwaukee. The vision is to live in a Milwaukee that is more desirable place for you and your family to grow up, work, play, and live out your very best future. Milwaukee will be a place where you are able to live with a sense of dignity, purpose, and infinite potential. Our city will be a place where boys and men of color feel connected, appreciated, and supported. We will achieve this vision when boys and men are equally represented, participated fully, and actively shaping Milwaukee’s economic, social, cultural, and political opportunities.

Project Homeless Connect

Project Homeless Connect has a simple mission to provide services and resources to homeless individuals and families. Beyond the need for safe and secure places to sleep, these individuals need a variety of other necessities in order to obtain the goal of permanent housing and sustainability. In 2015, over 500 individuals were provided services and resources at the event.

Thriving Waukesha

Thriving Waukesha focuses on building a thriving community by supporting collaborative efforts and mobilizing resources for the human service needs of all who call Waukesha County home.

Community Coalitions, Collaborations & Partnerships:

OUR WORK IN HEALTH

Health of individuals is a strong indicator of the health of a community. Achieving and maintaining good health is important during all stages of life, from conception through childhood, into adulthood through older age. To improve the health of our community we must all become more aware of health risks, starting from before birth. Whether it is a teen struggling to make the right decision, a senior in need of home health care, or a survivor of abuse seeking a safer environment; United Way is working to improve the quality of life for all.

United Way partners with agencies to provide help to those without health insurance, seniors in need of home health care, survivors of abuse, and individuals struggling with mental illness or addiction.

In 2016-17 United Way will invest in 88 programs listed, to the right under the issue areas they address.

PROGRAMS & COLLABORATIONS

HEALTHY BIRTH OUTCOMES INITIATIVE

United Way is taking the lead in promoting healthy birth outcomes in Milwaukee. Together with our partners, we are committed to helping reach the community-wide goal to reduce Milwaukee’s overall infant mortality rate by 10% and the African American infant mortality rate by 15% by 2017.

To ensure we address the infant mortality crisis, United Way invests in programs focused on prematurity prevention. Focus areas have included maternal mental health and family support services, maternal alcohol and other drug abuse and/or focus on fatherhood engagement.

HEALTHY GIRLS INITIATIVE

One of United Way’s key strategies in helping to reduce teen pregnancy and teen sexual violence for young people of all genders is the implementation of proven prevention and education programs through Healthy Girls Initiative. United Way has selected Making Proud Choices!, Reducing the Risk, Wise Guys and ¡Cuidate! as its signature curriculums. All four programs have been used successfully in Milwaukee and nationwide. By implementing the same programs throughout the community, United Way can accurately track progress and results through common outcomes and indicators, while also forming best practices.

Of the Healthy Girls Initiative participants:

• 90% demonstrated an increased understanding and awareness of sexual victimization.
• 82% demonstrated knowledge of the causes of pregnancy and pregnancy prevention.
• 89% demonstrated knowledge of sexually transmitted infections and how to prevent them.

MILWAUKEE LIFECOURSE INITIATIVE FOR HEALTHY FAMILIES COLLABORATIVE

United Way of Greater Milwaukee & Waukesha County was selected by the Wisconsin Partnership Program (WPP) at the University of Wisconsin School of Medicine and Public Health to lead its Lifecourse Initiative for Healthy Families (LIHF) in Milwaukee, allowing United Way to expand its efforts to reduce Milwaukee’s infant mortality rate.

The Milwaukee LIHF Collaborative is dedicated to improving community conditions that support Healthy Birth Outcomes. It convenes diverse community stakeholders from affected communities, as well as businesses, nonprofit organizations, and the public sector to identify a shared agenda to prevent prematurity and reduce infant mortality rates in Milwaukee.

Milwaukee LIHF Collaborative has three interconnected strategies to reduce the infant mortality rate:

• Reduce poverty and environmental stress.
• Expand health care access over the life course of parents and children.
• Strengthen father involvement.
You can support any of our initiatives by donating directly to United Way’s Community Fund.

HEALTH IMPROVEMENT FUND

United Way, in collaboration with the Milwaukee Health Care Partnership, is working to provide more people with access to high quality medical, dental, and mental health services. By partnering with the Milwaukee health systems, we are making investments in the community’s health by providing uncompensated care and prevention services to Milwaukee County’s vulnerable populations.

TEEN PREGNANCY PREVENTION INITIATIVE

Teen pregnancy profoundly affects the lives of those involved while costing the community millions of dollars through direct care, ancillary services, and the overall drain on the workforce. Most alarming is the connection between Milwaukee’s teen pregnancy epidemic and vicious, cyclical poverty. Since 2006, the Greater Milwaukee community has invested significant resources to aggressively combat what was then one of the worst teen birth rates in the nation. United Way convened a community-wide collaborative to bring the issue to the forefront of public attention and change the historically high rate of teen births.

Teen birth rates have dropped 54% in Milwaukee since 2006, surpassing the goal set by the United Way of Greater Milwaukee & Waukesha-led Teen Pregnancy Prevention Initiative in 2008. The goal was to reduce teen birth rates by 46% by 2015 – it was considered one of the most ambitious goals ever set in the nation. In 2013 the Teen Pregnancy Prevention Initiative announced another ambitious goal – to reduce the 2013 overall rate by another 50%, to 11.4 births per 1,000, by 2023. The initiative’s success is attributed to an all-hands-on-deck approach adopted by the community, which has been honored nationally as a model for other cities.

WHERE WE HELP

BOYS & GIRLS CLUBS OF GREATER MILWAUKEE TEEN PREGNANCY PREVENTION COLLABORATIVE PROJECT

The purpose of this program is to have a significant impact on reducing rates of teen pregnancy and existing disparities by replicating evidence-based teen pregnancy prevention programs to scale in communities with populations at greatest need. Boys & Girls Clubs and their partners will use funding from the Office on Adolescent Health to reach an estimated 13,000 youth ages 11-19 living in zip codes with the highest teen pregnancy rate over the next five years.

WE ARE EFFECTIVE & TRUSTWORTHY

At United Way of Greater Milwaukee & Waukesha County we invest in programs that produce results at agencies that manage their money wisely. We have been recognized nationally and locally for our high rate of efficiency. In 2014, Forbes named United Way as one of five All-Star Charities for efficiency.

We invest nearly 90 cents of every dollar raised into community problem solving – and that far exceeds national standards.
