

# WHO WILL TACKLE THE PROBLEMS MOST SHY AWAY FROM?

**LIVE UNITED®**

**“If I had missed one paycheck, my daughter and I would have been homeless. I had to find a way to keep my job.”**

After her old car broke down, Piper remembers taking the bus to work. Leaving at 3 o'clock in the morning meant Piper walked a mile to the bus stop in the pitch black.

Winter weather and late buses meant Piper often missed days or was late for work.

A friend told Piper about the United Way-funded Auto Loan Access Program at YWCA Southeast Wisconsin, which helps credit-challenged community members secure low-interest auto loans through financial education and budget coaching.

After careful budgeting and saving, Piper was approved for a loan and got her new car. Now, she drives past her old bus stop and picks up as many of her co-workers as she can fit. She drives them to work every day.

**United Way fights for Piper, and the health, education and financial stability of every person in our local community. We have one life. To live better, we must Live United.**
