

To promote and nurture experiences and encounters between individuals, with the ultimate goal of building authentic relationships across the divides that exist within our community, and creating a blueprint on how to address and solve biases.

**Partnership MKE** is a new initiative that aims to break down barriers and destroy bias by pairing individual community leaders across lines of race, age, religion, sexual orientation and culture. The program will guide participants through an eight-month process of relationship, understanding and trust-building.
