

Project LEAD

A healthy, vibrant community happens when *everyone* is engaged in civic life.

Here in Greater Milwaukee and Waukesha County, too many people are left out of our public conversations. United Way of Greater Milwaukee & Waukesha County is changing this with **Project LEAD—Leadership Effectiveness And Diversity**.

This in-depth six-week training program prepares community members for leadership roles on nonprofit boards and committees, with an emphasis on recruiting participants from underrepresented board populations (women, racially and ethnically diverse, young professionals).

- Learn the basic responsibilities of nonprofit boards
- Understand what is expected of individual board members
- Broaden your professional networks
- Influence decisions impacting our community

Project LEAD Workshop Information and Schedule Spring 2017

United Way's Leadership Society members serve as instructors for the program, offering valuable professional networking opportunities to participants. As an added benefit, an advisor from United Way's Leadership Society will be matched with each program participant to be a resource and support to the participant during and after the program.
